When visiting other clubs, introduce yourself, preferably to a committee member. Show your current FAI card to prove you have insurance, your valid 'heavy model permit' if applicable, and be signed into the 'visitor's book'. Enquire what any local rules are *before* flying, and obey them, especially frequency control. At competition events, the Contest Director usually takes charge of these matters, and explains the details at the 'pilot's briefing' before flying starts. Above all, treat the host club and its' members with respect, and feel privileged you are allowed to fly at their field.

NOTE... most clubs don't fly at all on days of declared Total Fire Ban.
