36 MHz: A standard **'two-inch keyboard'** will be used. Standard **two-inch frequency keys with your name & frequency printed on it are to be used.** Where models will be flying in an event requiring all to be flown together (check with the '11 events for 2019' description of events) any **frequency clashes will be decided by the date entries are received (first-in, best-dressed).** For your own convenience, enter early to avoid having to change to a **'to be advised'** unused frequency for your event. 36 MHz radios must be certified to the actual frequency used for an event.

*For an entry to be accepted in the order it is received, 36 MHz frequencies must be stated **IN FULL**
eg: 36.330 and not any kind of abbreviation. MAAA- approved 2.4 GHz is ok.*

Team managers: please make sure your pilots/team are at the field at the start of the day
and that all team-members agree to adhere to the spirit of the rules.

Please send your Team entry to the VMAA's Contest Director Joe Finocchiaro,
