IMAC Come and Try Day

Presented By:

ASAA

Supported by VMAA and NFG

Have you ever wondered what IMAC was all about?

Do you want to improve your flying skills and have fun doing it?

You don't have to be a super experienced R/C pilot and no other R/C activity will improve your flying skills as quickly as precision aerobatic.

The aim of this day is to introduce you to what IMAC (Scale Aerobatics) is all about.

We will have experienced pilots available to help you.

We will explain the current 2017 Basic IMAC sequence and fly it with the guidance of an experienced IMAC pilot.

There is no need for large IMAC planes. Any sports plane will do the Basic IMAC sequence.

What we will Cover:

What is IMAC (Scale Aerobatics)

How to get started
